

Redfinn 5200 Sea Angler

The Redfinn 5200 sea angler is based on traditional lines dating back to the days of wooden construction.

We now use modern double skinned building techniques to assemble this craft.

Being double skinned you have positive buoyancy and the craft is aesthetically pleasing with Gel Coat finish inside and out with no loose fibreglass strands, no rough laminate finish, no inconsistencies, no bonded in wood stringers.

Ample integrated Locker space for gear and Fuel Tank. The Redfinn 5200 is a very stable fishing platform and will take engines up to 20HP. Canopy/Dodger available.

Length 17' 5.2m

Beam 5'8" 1.73m

Draft 15" .380mm (engine down)

CE Class C
